COUNTY CRICKET.

Mr Albert Trott, the well-known Anglo-Australian cricketer, writes entertainly on the prospects of the present season's county

"Practice," he remarks in the "Daily Mirror," has already begun at the Oval, and players are being coached. - Lord Dalmeny is quite expected to play in August. R. Abel has been appointed a ground man and they are all hoping to see him back well again. Two of his sons. Vigar, Ducat, and a young fellow, named Myers are among those who are highly spoken of.

"Thanks to the generosity of Mr C. E. Green, R. G. Barlow, Buckenham, and Walter Mead have been engaged to coach at Leyton three weeks from May 21st. The outlook is very gloomy, and there are Al, ABO 5th Edition, Western Union now only about 1,800 members on the club's books, wherens a minimum of 2,500 is quite necessary if the Essex club is to be carried on without a loss. Carpenter will not appear in the county ranks again, but among new recruits are another Russell, a Future. son of old Tom's and brother of Moody who is a promising wicketkeeper and bat. Young is also to have a good trial in view of his improvement last year, while W. H. Faville, an old Forest boy, will be given a chance. Another young Douglas will make an appearance, while it is hoped that W. M. Turner, A. D. Womersley, and K. OHINKIANG: Messre Graning & Co. Gibson will also prove of service. I think myself the conservative ideas of Essex cricketers is largely responsible for the hesitation about Saturday matches. It is Ochl, Shinnew, Namazuta and Hojo Col. the "day of days," for the population round there. I have seen on more than one occasion eight or ten thousand when Yorkshire have been playing there; and am profoundly convinced that cricket would

pay better in the East End. "Leicestershire are looking forward to a good season under the captaincy of Si, Arthur Hazelrigg, who, if only he goes on improving, is likely to make his mark #5 A plucky and useful player. Burgess is the Astill, their clever bowler. The Crawfords are still young enough to emulate the doughty deeds of their younger brother.

"Warwickshire are taking great pains to develop new talent, and are paying special attention to a likely lot of amateurs. H. J. Goodwin, the Cantab; J. M. C. I towe, the Oxford fast howler ; Licutement Street, and the Brothers Stephens are the most prominent of some twenty or thirty who have been invited to practise. Neither, J. F. Byrnie or T. S. Fishwick will be able to play regularly, but A. C. S. Glover, a fine bat at times, will again captain the

"There is little news from Derbyshire except that Mr A. E. Lawton returns to (F) lead the side, who have also a good friend in Mr S. H. Wood, of Glossop, who will bring Lancashire to that town. Humphries has come back well and sound, and the county hope to improve on last season's record under the care of their old captain and Mr R. S. T. Cochrane, the new secretary.

"Notts, as champions, may well hope to do well during the coming season, though one would be glad to hear of howlers ready to take the place of Hallam and Wass. J George Gunn they have the most correct and sound player in the county, while Hardstaff has improved out of all knowledge. The county has been divided into districts, and trial matches are to be played in each with a view to finding fresh recruits, Mr A. O. Jones will lead the side and receive a well-merited testimonial.

"There is little news from Northampton except that every effort is being made to strengthen the batting, with what result we may see when the side appear at the Oval in May, under the captaincy of T Mauning.

"Sussex have brighter prospects than for the past few seasons, as Ranji has promised to turn out for them. Vine and Cox, who have been bowling in India, have brought back a wonderful story of the ability of a prince who will shortly be going to Cambridge, and it is hoped may appear at Brighton. Relf, sen., has returned strong and well. Matches are to be played at Horsham and Chichester, while two are given to Hastings, in addition to the festival which opens the first week in September.

. "Somerset have little to report, but the most pleasing feature will be the revival of the Surrey matches. Gloucestershire will have G. L. Jessop as captain, and Worcester H. K. Foster. The engagements are as last year, but there is no news of any promising players. H. K. Foster is utterly (Continued on Page 3.)

HOW TO DO MORE BUSINESS. MANY AMERICANS have built up I'd great commercial enterprises, by the use of Trade-news items supplied by our CLIPPING BUREAU; Chinese merchants can do the same if they follow American methods.

We clip business news from more than 50,000 papers monthly, and send these items to you while there is good prospect of supplying what is needed and doing

We can send you news and clippings on any line of business, or any subject, and you will be able to know, IN TRUTH, just what American business methods are like, and where there are openings for Chinese merchandise. Suppose, for instance, you are a maker-of Pottery: our Clipping Bureau might find in some paper an item saying that a big wholesale Pettery concern was being

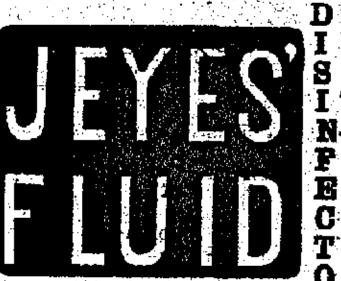

organized in a certain town :- we, of course, would send you that business-news item, and give you a chance to do business with that firm. We can do just the same in any line of business, for there is always something

being on that it might pay Unines merchants to know. We can supply you with advertisements of all the great American merchants and manufacturers, so that you may assimilate their ideas and increase your business in China the way we do here.

To avoid delay, send ten dellars (Mex.) for one month's trial order. Subsequent rate can be determined according to service. It won't cost any money to send for our fine Book which tells all about our service and how which tells all about our service.

MR HARDIE'S INDIAN TOUR. Repudiates Seditious Speeches. Mr J. Keir Hardie, M.P., addressing a

meeting called by the British Committee of the Indian National Congress, at the Caxton Hall, Westminster, referred to the reports of his alleged seditions speechas whilst in India. "I have not the reputation of being a discreet person," he said, "but I did not go to India to make speeches and take part in agitations or to stir up strife. I went to India to learn, and with that object in view felt it to be lineumbent upon me to be as non-political as possible n anything I might have to say there. "One morning, after my return from

Eastern Bengal, I found Calcutta had been informed from London that I was making seditions speeches in Bengal. They had never heard of those speeches in Bengal. The reporters who had been accompanying me for most of the journey had-not heard them, and they were somewhat surprised that the Press of London was better misin. formed (laughter) as to my doings than they were on the spot. I have been too long in public life to mind abuse or misrepresentation, but I am considering even now, whether, in the interests of the Indian people, or of any service which I may be able to render to India, I ought not to take legal action for an entire withdrawal of, or an apology for, the wilful, deliberate, lying statements made concerning me."

This news is not unexpected. The Saionji Ministry is frequently referred to by Japanese papers as the "Stop-gap" Ministry." This is what Count Okuma thinks of it: "Many Cabinets," he says, "have been formed, but there has never been a Cabinet more lacking in financial and economic knowledge than the present. dened with taxation than the Japanese at the present time. The cause which depression is due almost entirely to the indiscreet firencial scheme adopted by the present Cabinet. So long as such a financial project remains in force, so long will the share market continue to go down, and the confidence of foreigners in Japan's finance will continue to decline proportionately, so that the economic basis of the pation will at last be completely destroyed. Perhaps the sight of the present financial situation has now awakened the Government to its mistake. There is an old saying, 'Don't hesitate to correct a mistake when it is discovered.' The method adopted for the redemption of the Exchequer bonds and all the other financial schemes should be thoroughly and radically changed, seeing that they have now proved a failure; but it is plain that the present Ministry has not the courage to set to work to rectify its errors. It is extremely ridiculous that business men should still continue to make different suggestions respecting the relief of the situation in the expectation that they will be accepted by the Government. If it would by this time have resigned, out of very shame at the mistakes it has made. If present Ministry remains in office, it is hopeless to expect to maintain for any length of time true business activity.
